Child Trust Fund (CTF) - Stakeholder Account

Please note that the CTF product is only relevant if you have an existing CTF which you are considering transferring or if Her Majesty's Revenue & Customs (HMRC) are opening the account for an eligible child. If your child is not eligible for the CTF please consider the [Junior ISA](#) as an alternative.

Any child born in the UK between 1st September 2002 and 2nd January 2011 should have been issued with a voucher from the Government. Vouchers were worth £250 or £50, depending on when the child became entitled.

The voucher enabled the parent/guardian of the child to choose a provider for their child's CTF. If the voucher was not used before the expiry date then the Government allocated these accounts to various product providers, to ensure the children didn't miss out on their policy.

If your voucher has expired and you're unsure as to where your child's policy is held please visit the HMRC website for guidance.

www.gov.uk/child-trust-funds

You can no longer open a new CTF as all the Government vouchers have now expired however, you still have the option to transfer the CTF to a different provider, or to a Junior ISA.

Who has responsibility for a CTF account?

To transfer an account you must have parental responsibility for the child and be over 16 years of age, you must also be the registered contact for the account. The 'Registered Contact' is the person who can make decisions about the account and to whom annual statements will be sent. When the child reaches 16 he/she may become the 'Registered Contact' by completing a declaration at that time. If he/she fails to do so we will continue to manage the account in accordance with the most recent instructions from the previous Registered Contact.

What is the difference between a Stakeholder and a Non Stakeholder account?

The Government has set certain standards which a Stakeholder account must comply with and these are the only type of accounts that can be

used when allocated by Her Majesty's Revenue & Customs (HMRC).

The Requirements are:

- *The funds in the account should be invested predominantly in the stock market and in the shares of a spread of companies.*
- *Charges must not be more than 1.5% of the value of the fund in the account each year.*
- *Additional payments of £10.00 or more must be accepted either by cheque, cash, direct debit or standing order.*
- *There was a requirement to provide a facility for "lifestyling" when the child reaches 13 (later deferred to age 15). This is the process of switching the account to lower risk investments in order to provide some protection from the possibility of stock market losses as the child approaches 18. A change to the CTF Regulations on 06 April 2017 removed the requirement for lifestyling.*

Non-Stakeholder accounts can invest in different types of assets and are not restricted to maximum charges of 1.5%.

The Sheffield Mutual CTF is a Stakeholder Account. It no longer provides a lifestyling facility, but if you are concerned about the possibility of stock market losses you can request a transfer to the Society's lower-risk Investment Junior ISA - (see 'Can I transfer my CTF into a Junior ISA?').

How do I know the value of the investment in a CTF?

When the account is opened or additional money added to it, you will be allocated a number of units based upon the unit price on that day. For example if you invested £250.00 and the unit price was £1.00 you would be allocated 250 units.

The unit price will vary depending upon the value of assets within the fund and the number of units issued. However, the number of units allocated to your account will not vary unless additional money is invested. You can therefore calculate the value of your investment by multiplying the unit price at the time (see our website or contact us for current values) by the number of units held. The unit price will be calculated weekly and is available on our website or by contacting our

office. You will also receive an annual statement telling you the number of units and current value. In order to receive your annual statement, you must complete and return your Registered Contact Form. If no form is received then you will only receive a statement after your child's 4th, 10th and 15th birthday.

Are there any charges?

YES. The Society makes a charge of 1.5% of the value of the account each year for management and administration. The quoted unit price includes charges and there are no further deductions.

Can I add money to the CTF?

YES. Further payments can be made in addition to contributions from the Government up to the maximum allowed for that subscription year which runs from one birthday to the next (please see our website or contact us for the current subscription limits). However, you should remember that once money has been added under normal circumstances (see terminal illness or early death) the money cannot be accessed until the child reaches the age of 18. Additional payments can be taken over the phone by debit card, via a bank transfer, or you can send a cheque. Regular payments can also be set up by standing order or Direct Debit.

What happens when the child reaches 18?

The CTF account ends on the child's 18th birthday and at this stage he/she will be able to use the fund in any way he/she chooses as it will be paid to him/her. If the money is not required the Government has said that it can be rolled-over into an Individual Savings Account (ISA) in the child's name.

Can money be withdrawn from a CTF before the child reaches 18?

No, withdrawals are not allowed at any time up to age 18.

Is there any tax payable when the child reaches age 18?

No, under current legislation which may change in the future, the proceeds are free from income and capital gains tax.

What happens in the event of death or diagnosis of a terminal illness?

In the case of diagnosis of a terminal illness

HMRC may allow early access but they will have to be contacted via their website to make a claim.

They may agree to some or all of the invested fund being withdrawn but the account will remain open to accept any further payments that may be due. In the unfortunate event of death the value of the account on the date of death will be paid to the child's estate.

Can I transfer a CTF investment from or to another provider?

YES. You can transfer either to or from a CTF provider by obtaining and completing a transfer form. This must be the whole amount as partial transfers are not allowed.

Can I transfer my CTF into a Junior ISA?

YES, those with a Child Trust Fund may transfer to a Junior ISA should they wish to. This must be the whole amount as partial transfers are not allowed. Any such transfer will not count towards the child's Junior ISA allowance. Transferring a Child Trust Fund to a Sheffield Mutual Investment Junior ISA is simple and you can obtain a Transfer Form either online or by contacting the Society. You will not have to contact the Child Trust Fund provider yourself.

A CTF may be transferred even if, at the time of the transfer, the child would not meet the normal UK residency conditions for a Junior ISA.

Can I change my mind after making a transfer application?

YES. You will have 14 days in which to change your mind after you submit your transfer request.

Will any other information be required?

In order to receive additional payments we may require proof of identity and address in order to comply with anti-money laundering regulations. We reserve the right to do this electronically through an external agency.

What do I do next ?

The 'Registered Contact' will need to complete the transfer form with the Client Agreement and send this to FREEPOST RLUC-XKZE-RJAT, Sheffield Mutual Friendly Society, 3 Maple Park, Maple Court, Tankersley, Barnsley, S75 3DP. We will then send a pack confirming the details of the account once the transfer has gone through.

Key Information Document

Child Trust Fund (CTF)

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

The name of this product is the 'Child Trust Fund'. It is provided by Sheffield Mutual Friendly Society. Our website address, where you can find detailed information about us, is www.sheffieldmutual.com and our telephone number is 01226 741 000. We are supervised by the Financial Conduct Authority in respect of the production and delivery of this Key Information Document (KID). This KID was produced on 2nd January 2024.

What is this product?

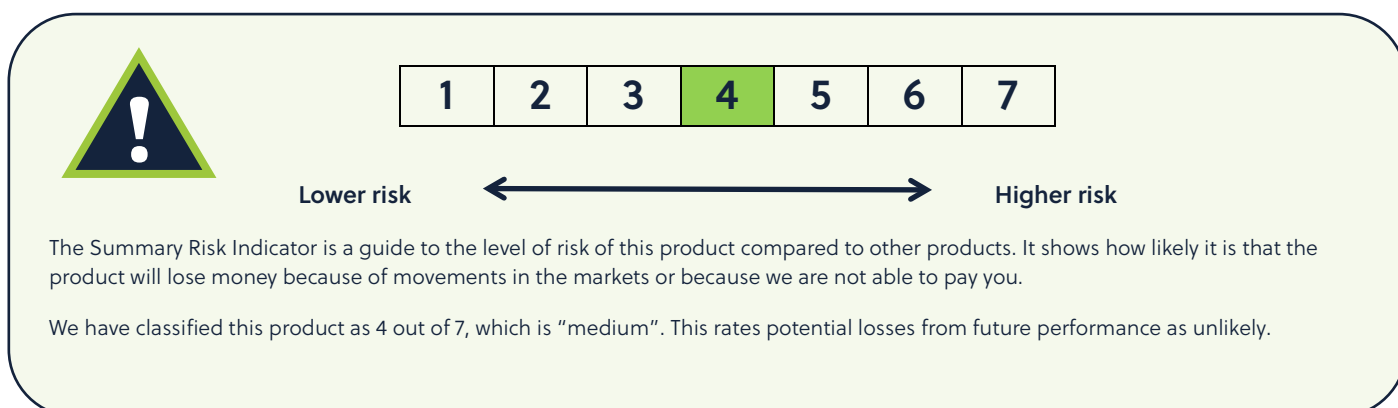

Type: It is a long-term insurance based savings account for a child. It invests in a fund whose assets are predominantly held in the shares of stock exchange listed companies, the value of which can vary. The minimum payment into the account in a 12-month period is £10 and the maximum is the annual allowance advised each year by Her Majesty's Revenue and Customs.

Objectives: The objective of the Child Trust Fund (CTF) is to provide your child with a tax-free lump sum at the end of the investment period. The investment period lasts until the child is 18 years old.

Intended Retail Investor: The plan was provided by the Government for all children born between 1st September 2002 and 2nd January 2011. It is no longer possible to open a new CTF, but you can transfer an existing CTF from another provider to us.

What are the risks and what could I get in return?

Summary Risk Indicator (SRI)

Performance information

The Sheffield Mutual CTF invests your money in the Legal & General UK Index Trust fund (the "Fund"). The Fund's objective is to provide growth by tracking the FTSE All-Share Index, which contains a mix of large and small UK companies listed on the London Stock Exchange. It is a passively managed fund, which means that it aims to replicate the performance of the index.

The money you invest is used to purchase 'units' in the Fund, and the selling price of each unit (i.e. the amount you could receive back per unit) is published weekly by the Society.

Money invested in stocks and shares can fluctuate and the value of the units you hold may go up or down in line with the performance of the Fund. Inflation may affect the value of your payout in the future.

The Sheffield Mutual CTF is a Stakeholder account which means that charges on the Fund are capped and must not be more than 1.5% of the value of the fund each year.

What could affect my return positively?

When the unit price of the Fund increases, so too will the overall value of your investment.

What could affect my return negatively?

When the unit price of the Fund decreases, the value of your investment will also fall.

What happens if Sheffield Mutual Friendly Society is unable to pay out?

The Fund invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over a short period time. You may not get back the amount you invested, and the amount you get back could be nil in extreme market conditions.

We are covered by the Financial Services Compensation Scheme (FSCS) who you can write to at PO Box 300, Mitcheldean, GL17 1DY. Telephone 0800 678 1100. Further information is available on their website – www.fscs.org.uk or by clicking on the "FSCS protected" link on our website footer.

This product is categorised as a long-term insurance policy and under the above compensation scheme eligible claims may be covered for up to 100% should Sheffield Mutual Friendly Society default. Some of the investments underlying this product are managed on behalf of Sheffield Mutual Friendly Society by professional investment managers, and they use nominees and custodians, in respect of investments purchased and held. The investment managers and their counterparts are not covered by the compensation scheme but were they to default, and this in turn caused Sheffield Mutual Friendly Society to default, then you would still be covered by the FSCS because your contract is with Sheffield Mutual Friendly Society. The FSCS does not cover losses arising purely from investment performance.

What are the costs?

Table 1: Cost over time

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest £1,000 per year. The figures are estimates and may change in the future. The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

Investment £1,000 If cashed in after... Scenarios	1 year	9 years	18 years (at the Recommended Holding Period)
Total costs	£14.78	£623.58	£2,220.01
Impact on Return (RIY) each year	1.5%	1.5%	1.5%

Table 2: Composition of Costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

This table shows the impact on return each year			
One-off costs	Entry costs	0.0%	The impact of the costs you pay when entering into your investment.
	Exit costs	0.0%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.0%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	1.5%	The impact of the costs that we take each year for managing your investments.
Incidental costs	Performance/other costs	0.0%	This product does not have any performance or other incidental fees.

How long should I hold it and can I take money out early?

You will have to keep the plan until the child is 18 years of age. You cannot take money out early and if you stop paying into the CTF the fund cannot be released until the child is 18 years of age. In the event of terminal illness or death of the child the value of the account on the date of death will be paid to the child's estate.

How can I complain?
